NEVADA AND THE WORLD'S FAIR.

What is Nevada going to do at the World's Fair? It seems as though it was time our people began to ask themselves this question. Are we, as a State, going to make an exhibit, or simply let whatever is sent by individuals constitute our display? It seems as though this must be our policy, unless some movement is made soon in this direction.

California has asked for ten acres at Chicago and will probably get it. Other States are fast making applications for space. In Nevada to procrastinate and when the time comes make a ridiculous spectacle among the splendid showings of her sister commonwealths? For what purpose is California, Utah, Oregon and the other Pacific and Western States entering upon such vast plans in their departments, if it be not to advertise their resources?

There is not a State in the Union whose resources need advertising more than Nevada's. Then let this State, when she has an opportunity, and it is expected that she will improve that opportunity, let her make a showing that will be at once significant of her arts and illustrative of her resources.

Brigham Young, Jr., seems to be giving taffy to the English press. He says that the Mormons always had, and always will honor the laws of the land, which sounds strange to American ears. He further says that laws against plural marriage having been passed, the President of the Mormon Church has submitted. It took him a long time to find out what the law required, and his submission smacks of deathbed repentence, says the San Francisco Bulletin, although better late than never. As to its being a popular delusion that the Mormons were compelled to have more than one wife, it is a fact that they were earnestly enjoined to have as many as they could get, and women were taught that there was no heaven for them if they died unmarried. Put this and that, and the gathering up of European girls by Mormon missionaries, together and only one inference is possible. Is this working of the English press intended to encourage Mormon emigration from the United Kingdom?

Nevada has a population of 3,818,537 making it the third State in the Union in population, New York being the first and Pennsylvania the second. Its immense increase, 740,000 in ten years, is almost entirely attributable to Chicago, that wonderful city making an increase of 640,000 in the decade. If Chicago keeps up its present increase in 1910 it will be the metropolis of the Western Hemisphere. At the present rate it will in 1910 be the metropolis of the world, having a population of 6,000,000.

The big battle-ship to be built by the Union Iron Works will probably be called the "California," in pursuance of the rule of naming first-rates for States. It is a good name and there are several more equally good on the Pacific slope. With an "Oregon," "Washington," "Idaho," "Nevada" and "Arizona," while the "California," heavily armed and armored, floating on the waters of San Francisco Bay, this coast would feel pretty well guarded against any sudden outbreak of hostilities.

A large number of the heirs of Robert Morris, the millionaire of the revolution and Washington's financial agent during the darkest days of the struggle for American independence, have decided to bring an action for the recovery of a large tract of land in the western counties of New York, said to embrace 204,000 acres and estimated to be worth something like \$50,000,000.

The women of California are moving in the matter of purchasing for Mrs. General Fremont a comfortable home in Los Angeles. It is commendable and will meet with success. Not a great sum is needed, but sufficient should be raised to give the aged widow a good home, well furnished and located in a superior part of the city of her choice.

The census returns make some remarkable disclosures, regarding the National, State and county indebtedness of this country. The National debt has been reduced since 1880 from \$1,042,172,105 to \$870,075,132. The State indebtedness has fallen during the decade from \$227,176,133, and the county indebtedness has fallen from \$124,027,695 ten years ago to \$115,222,885.

A jury at Syracuse, N. Y., a few days ago, found a verdict for the defendant, but the foreman blunderingly announced a verdict for the plaintiff, and the Court recorded the same and gave judgment accordingly. When the mistake was discovered after the jury's discharge, the Judge said he could not change the record.

Some of the Democrats are very much afraid the Republicans intend to make a clean sweep in Washoe. The Republicans have a first-class ticket and there is no good reason why it should not be elected from top to bottom.

The Quebec Telegraph says it is deluged with congratulatory letters and telegrams from all parts of the Dominion, applauding the bold stand it has taken in favor of annexation with the United States.

John Most, the Anarchist, is going to London. He, happily, is disgusted with America.

AN APPEAL FROM GLADSTONE.

He Asks the Tory Government to Pass a Home Rule Bill.

The November number of Subjects of the Day contains an appeal from Gladstone to Tory householders in which he expresses a strong desire that the Tory party undertake to pass a Home Rule bill, because, he says, that party can do it more easily and more rapidly than can the Liberals. He asks why they should continue to do to Ireland the things she seeks from them, namely, self-government, central in that it should be carried on in Dublin, but local in that its power would be confined to purely Irish affairs and its action, like those of all other local legislatures in the Empire, be subject to the supremacy of the Imperial Parliament.

Earl Spencer, formerly Lord Lieutenant of Ireland, delivered a speech at Newport in which he said that the events taking place in Ireland were a disgrace and a source of danger to the empire. He expressed himself confident that the proposal of Gladstone if acted upon would settle the Irish question.

BARON WISSMANN DISGUSTED

His Dictatorship in East Africa Nearly at an End.

Baron Wissmann, who, up to a very recent date, has had pretty nearly everything his own way in managing German affairs in East Africa, is chagrined at the appointment of General Soden in a capacity which will make him independent of, if not superior to, Wissmann. The Baron has gone to Freiderichshafen to visit Prince Bismarck—a delicate way of conveying to the Emperor the fact that he is in a miff.

On the other hand, ex-Counsel Dr. Knapp of Samoa fame, whom Bismarck made a scapegoat when Germany found it advisable to back down before England and the United States, and who has accepted the German plantation companies' management in South Africa, has been received by Chancellor von Caprivi, who had a long conversation with him.

Prohibitionists Alarmed.

A decision was rendered in the United States Circuit Court in Topeka yesterday morning that created consternation among the friends of prohibition in Kansas. The decision allows the reopening of original package liquor houses in this State, and in effect declares that the Wilson bill enacted by Congress does not restore the power of the Kansas prohibitory law as against original package saloons.

The facts in the case are: Charles Raher, agent for a Kansas City liquor house, was arrested for selling liquor in Topeka, after the passage of the Wilson bill. He applied to the United States Circuit Court for a writ of habeas corpus, admitting he sold the liquor as charged, but claimed that inasmuch as the Kansas prohibitory law was enacted before the Wilson bill, the Wilson bill did not apply. Judge Foster and Phillips sustained this view and granted the writ.

To Complete His Education.

The plan of the young stage robber, who held up a coach on the famous Robbers' ridge in Mendocino county, is certainly novel. He claims he wanted money to carry on his education, so he took to the road as the surest and swiftest way of filling his purse. He had fed his mind on dash detective stories and such fiction as "The Clemenceau Case" and "The Kreutzer Sonata." He will furnish a good illustration to the moralist who believes that the end justifies the means, but it is to be feared that he will have liberal time in San Quentin to perfect his education.

A Scarcity of Lumber.

A great scarcity of building lumber exists at the City of Mexico. Work on many buildings has been suspended. Most of the timber in the vicinity of the railroads has become exhausted, and it is impossible to bring lumber from a distance during the wet season, owing to the bad roads. Much lumber is, therefore, brought from Texas at a heavy cost.

The Bodie Miner, a Democratic paper, says: Some Nevada "organs" assert that R. K. Colcord, the Republican candidate for Governor of that State, is a low-wages man. This doesn't go, gentlemen. We know that R. K. Colcord interposed his influence to prevent a reduction of miners' wages in Bodie. R. K. Colcord is a Republican; we are a Democrat; possibly we are both, gentlemen. We have to cross the line to vote against Mr. Colcord in order to defeat him; but we want Theodore and his friends to defeat Mr. Colcord on the square.

Death of a Pioneer.

Yesterday morning at 9:30 o'clock C. W. Wellman, an old resident of this section and a pioneer of the Pacific Coast, died suddenly from the effects of a strain super-induced a few days since by overwork while baling hay. Thursday afternoon he was about town as usual. While in Ruhe's grocery store he was suddenly seized with an intense pain in the side, which after a time went away, leaving him very weak. He went home, and feeling better yesterday morning, went to work in his garden. Soon after the pain returned. He went in the house and laid down on the lounge where he soon after expired. Deceased has been a resident of Reno for more than twenty years and was a veteran of the Mexican war.

The Quebec Telegraph says it is deluged with congratulatory letters and telegrams from all parts of the Dominion, applauding the bold stand it has taken in favor of annexation with the United States.

John Most, the Anarchist, is going to London. He, happily, is disgusted with America.

THE JUDICIARY.

The Five Gentlemen Placed in Nomination by the Republicans.

The Enterprise says of the Republican judicial nominees: R. R. Baglow is the Republican nominee for Judge of the Supreme Court. Judge Baglow has been on the bench or a member of the bar of Elko county for 20 years. He was appointed Judge of Elko in 1881, and was subsequently elected in 1882, of the district then comprising Elko and Humboldt. In that election he beat his Democratic opponent, J. H. McMillan, his present opponent, by a large majority in the district, and beat him also by a very large majority in McMillan's own town—Winnemucca. He is a most studious and painstaking Judge, and he enlists counsel practicing before him to work with him to arrive at the truth and justice of a contention, as well as to work for the success of their clients.

Judge Richard Rising, one of our candidates for the office of District Judge, has presided upon the bench in Storey county for 26 years, being elected with Judges Meador and Burbank in 1864, when Nevada became a State, and being re-elected his own successor by overwhelming majorities at every election since that time. With the members of the Nevada bar and leading lawyers of California no man has a warmer personal or public following. Patrick Ready, after an arduous and protracted mining suit in Hawthorne, closing his argument and his case, thus addressed Judge Rising: "If I should have hundreds of cases to try in Nevada I hope I have a gentleman like you, Honor before whom to try them." General R. M. Clarke said in Elko during the trial of a long and wearisome mining suit: "Your Honor remembers the evidence better than we do, who have been examining the mine with the witness for months," and counsel for both sides upon the conclusion of the case thanked his honor for his impartial rulings throughout the case, and for his patience on many a trying occasion in the case. Upon the Comstock Judge Rising has tried cases involving many millions of money, and the mining laws are in great part the evolution of the work in his court. The brightest legal minds in the Coast, and brightest mining experts in the world have appeared before Judge Rising, and they have learned that they addressed a man who understood them.

George F. Talbot, of Elko, went to Elko in 1869 with his father. He received a common school education, when his father told him that the world was choking us with professional men and he didn't think he would do any more for him. George didn't look at it in that way. He went to work for wages, earned and saved money, and in 1872 he went East and entered college, and remained there eight years studying law the latter part of his course. He has held the position of District Attorney of Elko county during the years from 1885 to 1889, having been admitted to the bar in 1881. He is studious and painstaking, and has unlimited capacity for details, familiarizing himself with a particularity unsurpassed by any man. Mr. Talbot, if elected, as he certainly will be, will honor the office he is called upon to fill.

A. E. Cheney, of Eureka, was born in Ohio. He has been practicing law in Eureka in partnership with Hon. Thomas Wren for ten years. At the bar he is the peer of any other lawyer in Nevada. His practice is clear-cut, sharp, incisive and without any admixture of extraneous slobo—so to avoid void of the practice which hampers the pettifogger. He ultimately came on the bench that will reflect credit on his Nevada bar.

Those H. Wells, who is at present District Judge of White Pine, Lincoln and Nye counties, is a pioneer of Nevada, and he has been a member of the bar since it was a state. As a constitutional lawyer the name of those H. Wells shines brightly in the galaxy of legal titans who have practiced in this state. In his circuit the people ask for his re-election, and the rest of the State will certainly grant him his wishes.

The above are the men whom the Republican party ask the people to support and to elect as their judicial officers for the next four years.

DIED.

WELLMAN—Near Reno, Nevada, Oct. 17, 1890. O. W. Wellman, a native of Kentucky, aged 71 years.

POLITICAL.

Adopted by the Republican State Convention held at Virginia City, Nevada, September 4, 1890:

The record of the Republican party is its best platform.

No political party in human history has taken such advanced positions for the equality of races, none has so wedged the administration of authority in the hands of public men, none has so managed the affairs of a state or nation, none has so elevated a continent, none has so elevated a nation and so contributed to the happiness of man, none has so honestly and economically carried on the round duties of office.

In all things it has been the direct opposite of the Democratic party. In its ambitions and impulses, first and results, it is most consistent, strong in its devotion to principle, it is most honest, it has been from birth, the representative of all that is noblest and best in our country and hope and promise of a better future for the human race.

It battles for human rights, its preservation of the Union, its abhorrence of slavery, its protection of labor, its elevation of agriculture, its holding of the Nation's credit, its honest methods, and its devotion to popular education have made it the greatest record of any political organization in this or any other country ever had.

The record of the Democratic party, and the deeds of Fremont, Lincoln, Grant, Hayes, and Garfield will shine like electric lights on the pages of history.

The Republicans of Nevada, in convention assembled, heartily endorse the acts of the Fifty-first Congress, which has made greater advances in correct and needed legislation than any since the war, to the end of which time, so far as reported to us by the Democratic party for the purpose of defeating legislation and blocking the wheels of government, has been done away with by the genius of Reed, McKinley and their associates, and the offenders taught that Congressmen are paid by the people for making good laws and not bad policies.

The silver question will lead naturally to a free coinage and dismally opposition among financiers.

It has taken up the work of a readjustment of

the tariff in a patriotic and business like way, such as will protect the interests of labor and at the same time encourage capital to invest in enterprises that will find it with employment at good wages.

The West States have been admitted to the Union before have been admitted to the Union, and the grip of Tammany Hall upon the Presidency broken.

Trusts that grew rank under Cleveland's Administration have been broken up and made to obey the laws of honest commerce.

Efforts are being made to prevent or punish frauds in elections. A navy has been provided for and suitable positions granted to prevent suffering among the sick and wounded heroes of the war.

Provision is being made for the reclamation of the arid regions, where the Republicans' policy of free homes and free schools can be extended.

The public domain is being opened to the public and the land thrown open to settlement, and in all things the pledges of the National platform are being amply redeemed.

We endorse the Administration of President Harrison and commend his conservative course as striking in contrast with his predecessor in office.

During the Administration of Harrison, when wheat touched the lowest price ever known, and farmers burned their corn for fuel, trusts were stimulated, finances disarranged, strikes prevailed, the mail service was demoralized and business found itself oppressed instead of being encouraged by the methods of the Government, whose whole business should be to uplift the country.

To-day silver, wheat and all the products of labor are rapidly rising, and while the Democratic officials may perhaps be innocent of intentionally destroying our prosperity they are culpable for the results of blunders as they would be for crimes.

We endorse the Administration of President Harrison and commend his conservative course as striking in contrast with his predecessor in office.
